## PHENIX NATIONAL BANK SOLD.

BUYERS HAVE ENOUGH STOCK TO GET NEW CHARTER.

Names of Those Interested in the Deal Not Yet Announced-George Warner Acting for Them-Has Existed Since 1812-The Charter Expires in June. New interests, it was learned yesterday,

bave secured entire control of the Phenix National Bank. George C. Warner, counsel for the new interests, made a proposition to the stockholders of the bank in August to purchase their stock. It was announced at that time that the

plan to place the bank under new control would become operative if 50 per cent. of the stockholders agreed to sell. Mr.

warner announced soon after that he had secured to per cent. of the stock.

The bank, which was founded in 1812, will have to secure a new charter next June. To secure it two-thirds of the stockholders must apply, and the new owners found that they would have to buy more stock in order to carry on the head store. stock in order to carry on the bank after

June next.

It was learned yesterday that Mr. War-ner's clients have purchased the remaining stock, including that owned by President Raven of the Atlantic Insurance Com-

pany and others.
Who the new owners are has not developed yet, but will probably be made known at the annual stockholders' meeting the latter part of October.

### SHIPBUILDING ON THE LAKES. Orders for Twenty-one Vessels, Represent-

ing a Valuation of \$8,000,000. CHICAGO, Oct. 15 .- The spurt taken by the shipbuilding industry during recent weeks comes with almost as much surprise weeks comes with almost as much surprise to shipbuilders as to marine interests.

The American Shipbuilding Company has now on hand orders for fourteen steamers, all of large dimensions, aggregating a total carrying capacity of about 130,000 tons and a gross valuation of approximately \$5,000,000.

The Great Lakes Engineering Works has contracts for six monster steamers, and the Craig Shipbuilding Company an order for one, a car ferry, which brings the total of new tonnage thus far placed this fail up to twenty-one vessels, repre-

the total of new tonnage thus far placed this fall up to twenty-one vessels, representing a capacity of about 190,000 tons and a valuation of \$8,000,000.

"There are orders for a number of boats still pending," said Chairman W. L. Brown of the American Shipbuilding Company, "and some of these will be placed during the next few days. They are all big fellows and will bear out my prediction that the beginning of an era of immense ship construction is at hand."

### LITTLE BEAR FAILURE. A. Wasservogel Caught Short of U. P., Steel

Preferred and B. B. T. The failure of A. Wasservogel was an nounced on the Consolidated Stock Exchange yesterday. The failure is for a very small amount. Mr. Wasservogel was caught short on Union Pacific, Steel pre-ferred and Brooklyn Rapid Transit. He

ferred and Brooklyn Rapid Transit. He has been a member of the exchange since March 16, 1901, and has an office with two other members of the exchange, Aaron Mayer an. A. H. Levy, in the Consolidated Exchange building.

Mr. Wasservogel, as well as S. Vollman, the sponge dealing broker, who failed on Saturday, has until to-morrow to meet his obligations before formal suspension is announced. The rule allows twenty-four hours, but, Saturday being a short day, Mr. Vollman has until Monday.

### Big Game Preserve for Miners.

WILKESBARRE, Oct. 15 .- Coxe Bros. & Co., the mine owners who have large tracts of forest land from which the second growth has been yearly swept by extensive fires, are developing a scheme by which they expect to preserve the value of the land expect to preserve the value of the land and make a famous hunting ground of it. They have organized their 4,500 employees at each of the small mining villages in the disrict into game clubs, the members of which are to have the privilege of hunting over the ground and in return to guard it against fires and see that the game laws are encrosed.

Shot His Mother for a Chicken Thief NORFOLE, Va., Oct. 15 .- Mrs. Ellen C. Jones, aged 48, is dying in Sarah Lee Hospital here to-day of a bullet wound inflicted her son, aged 21. She was in the yard at her home near Ivor, Va., last night, looking after her chickens, when a setting hen gave a cackle. Those in the house supposed that chicken thieves were about, and young Jones fired in the darkness toward the henhouse, striking his mother.

# FINANCIAL NOTES.

Among the memberships posted for transfer on the Stock Exchange yesterday was that of John H. Dunne of 20 Broad street to W. J. Ehrich. Mr. Dunne has been for a number of years one of the most active and well known traders on the exchange.

The United States Steel Products Export Company will ship about 18,000 tons of steel rails to Corea within the next month. The company handles the export business for the United States Steel Corporation.

HAIGHT & FREESE CO.

GOSSIP OF WALL STREET.

The volume of the market is best shown the fact that it took at least five minutes to print off on the ticker the opening quota-tions and more than ten minutes following the closing at 12 o'clock to send out over the tape the great bulk of sales made in the last few minutes of trading. The total volume of \$63,000 shares is almost if not quite, a record for Saturday trading. It was reported on the floor that odd lot orders were refused generally on account of the pres-sure of business and the commission houses were enjoying a remarkable increase in orders. Two dollar brokers both yes-terday and on Friday handled record commitments. As on Friday the volume brought forth no talk of culmination of the upward novement and brokers are looking big opening on Monday and another week of rising prices.

In their gossip on the day the brokerage houses generally spoke of the spread of the "bull fever," which they insisted was not confined to the habitues of the Street, but was evident the country over. While this may be exaggeration so far as it speaks for the situation out of town it is an exact de-scription of the situation in the Street proper. For two days the crowds around the tickers in brokerage houses have resembled those at the Bridge in the rush hours. The quotation boards are too far behind the tape to satisfy the anxiety of those smitten with the

The early stimulus came from the higher range of quotations sent over by London. That market was influenced by the buoyant close here on Friday and by the execution of orders originating on this side.

Coming with the market's great activity, the violent jumps in Louisville and Nash-ville recalled the days immediately preced-ing the announcement of the purchase of control of that property by the Gates chaue. The stock was one of the firm features of the London market, opening there 1% points above the closing here on Friday. The Gates party gets all the credit now as formerly for the activity and advances in Louis-ville and Nashville. The room understands that it began to accumulate the stock, in addition to holdings carried for a long time. around 117, and that it has piled up big profits in spite of the fact that at one time its old holdings showed a round loss. The only talk from this interest is of increased dividends on the stock which, it is insisted, should sell at least as high as New York Central. The fact that the control was turned over at a figure still in excess of the present price is also given as a bullish argument. The wildest fluctuations in the stock came in the last fifteen minutes of trading. In this time some 6,700 shares were sold, beginning at 133 % and ending, with a lot of 50 shares, at 1853/ after touching 137 twice during this period. Between transactions the fluctuations were mostly in half points.

Steel preferred went through 80 with much ease after fluctuating just below this figure for some days. The interest in these issues, however, centred again in the common stock, which made a new high record at 21%, at which price it closed. The room had a report that a block of some 40,000 shares of the common was bought on Friday between 19% and 30 by interests closely in touch with the company's affairs.

Brooklyn Rapid Transit was one of the The realizing at the high price reached by the stock in one week invited a particularly heavy volume of profit taking.

The Gould issues were again laggards in the general upward movement, the Wabash issues in particular revealing the smallest of advances. The room reports are persistent that certain members of the Gould party are bearish on the Metropolitan stocks and that they do not care to see an advance in their own properties under these conditions. The own properties under these conditions. The St. Louis Southwestern stocks, particularly the preferred, have been the only so-called Gould stocks which have had proportionate advances with those of the general market. With Louisville and Nashville and other railroad shares paying the same dividend as Missouri Pacific and selling many points higher the floor feels called upon to offer some

In the loan crowd at the close there was a pig demand for Pennsylvania and a good demand for several other stocks, including Atchison. It is insisted that there is still outstanding a short interest of some size, although its extent is a matter of pure speculation, since it is not disclosed in the loan crowd. Much of this is thought to be Steel

The Stock Exchange Committee on securities rules that transactions in Canadian Sales of rights must be settled on Nov. 23. and due bills redeemed then. The right to subscribe terminates on Nov. 30.

### BUSINESS TROUBLES.

E. J. Mast & Co., Cigar Manufacturers. Owe \$287,000.

Ernest J. Mast and Maurice Eller filed petitions in bankruptcy yesterday, individually and as members of the firm of E. J. Mast & Co., cigar manufacturers, of 84 Cortlandt street, with liabilities of \$297,104 and assets of \$4,334. Of the liabilities \$3,596 were se of \$4,334. Of the Habilities \$3,596 were secured by merchandise. The partnership was formed Jan. 1, 1901, and the firm made an assignment on Nov. 11, 1903, at the time of the trouble of the Sutter Bros., who held \$40,000 of their accommodation paper. Sutter Bros. appear as the largest creditor, \$66,028.

A creditors' petition in bankruptcy was filed yesterday against Henry E. Myers, neckwear, 61 East Eleventh street.

Gold is the Basis of All Wealth and the Standard of Your Fatherland.

IT MUST BE MINED-THAT IS OUR BUSINESS. It Has Made Hundreds of Multi-Millionaires---Thousands and Thousands of Wealthy People by a Small Investment.

The Production of Gold has made the West-Once a Wilderness-an Empire; the Old Santa Fe Traila Magnificent Railroad System.

We Are Talking About Real Mining-Our Object Is to Bring New Dollars Into Existence by the Production of Gold and Our Properties Have a Record, Which Is:

# "SIXTEEN MILLIONS TAKEN OUT BAGATELLE TO WHAT REMAINS." Daniel I. Bradley

We Have Gold Deposits of Untold Value in the Greatest Mining Property in America -This Offers Opportunities of the Rarest Order Offered to the Pub. c.

We want to dig this gold out and mill it and we can make one million dollars a year for years. By making an investment now you can share these untold millions that are not an expectation but a certainty.

Col. William A. Farish, in a report just made on our property, says—"It is the greatest Mining Venture I ever saw." He is one of the greatest authorities on mining-practical, critical and positive. Our organization is made up entirely of real investors, with a management of real miners and business men, and you are

invited to come in on an equality with us—we are not stock jobbers but miners. Our Financial Plan Repays Your Entire Investment Before Dividends are Paid on the

Stock and Gives You Six Per Cent. Per Annum, Paid Semi-Annually on Your Investment, While the Company Is Bringing this About.

In about two years your stock will be a clear profit and worth nearly a dozen times what you paid for it. Take your opportunity and make a fortune in two years—anybody can save one in twenty years. Do you want yours now? If so invest with us.

We can convince you that you should not let this opportunity pass—and do so on merits.

For an unbiased statement of facts about these mines, see,—UNITED STATES TREASURY DEPARTMENT. Document No. 2259. Director

of the Mint, page 76. which reads as follows:—

In referring to the gold producers of Arizona, mention should be made of the well-known Vulture mine, which has produced millions for its different owners. The late H. A. W. Tabor, of Denver, owned this property at one time and realized a fortune from it. It was never handled in a scientific manner, the object of those working it being to extract the values in the quickest possible way. In the early days the warlike Apaches made its operation a matter of great personal danger to the owners and their employees. Far from civilization and supply points, the men were frequently paid with gold chopped from the ingots produced. No attempt was made to save the lesser values; indeed, there was no process available for such a course. Three years ago a Denver man cleaned up about \$75,000 from a portion of the tailings. The remaining tailings are very rich. The property passed under the control of Chicago parties in 1898, and recently a New York syndicate bought it and is preparing to work it upon its merits. There is little doubt that in a year or two the Vulture will again become known as a rich producer."

## You Will Appreciate Your Opportunity More When You Read the Following Facts About the Vulture Development Company.

Was properly organized.

Was organized by earnest business men.

Its purpose being to own and operate the principal mines of an entire district—THE VULTURE DISTRICT. That district has the record for the GREATEST GOLD PRODUCTION of any mining district in Arizona.

Within the district, on part of the property of this Company, is the OLDEST AND GREATEST GOLD PRODUCER IN ARIZONA. To a vertical depth of one hundred and eighty feet that mine PRODUCED MORE GOLD THAN ANY MINE IN THE WORLD.

The Company's capitalization is based on the OWNERSHIP AND CONTROL OF SIXTY-SIX MINING CLAIMS, embraced in five groups, while one group alone would be ample to warrant the same capitalization. At the Company's organization, OVER TWO-THIRDS OF THE ENTIRE CAPI-

TAL STOCK, full paid and non-assessable, was placed in the treasury for its corporate The Company is organized under laws permitting but ONE KIND OF STOCK (no

NO BONDS OR MORTGAGES. Stockholders being actual owners. No Promoters' stock. Every share of stock represents A CASH INVESTMENT

The Company's property has been examined and reported on by one of the highest authorities on mining in the United States—COL. W.M. A. FARISH, of Denver, Colorado whose reputation is worldwide.

HE SAYS IT IS THE GREATEST MINING VENTURE THAT HE EVER SAW. He has seen and examined all of the great mines in the United States, and nearly

every great mine in North America.

Much of the Company's property has extensive development work, and, the same authority says, is capable of the production of many MILLIONS OF DOLLARS, as we already have SEVERAL DEMONSTRATED MINES containing thousands of tons of gold ores exposed ready to be milled, and acres of mill tailings, which alone is a fortune.

Besides this, the Company's ground embraces a large number of mining claims whose mineralization warrants development

The prospective value of this stock should be judged by what it would be if it participated in the ownership of several large mines in any noted mining district, such as "Cripple Creek," "Black Hills," "Coeur d'Alene," "Mother Lode of California," "United Verde," "Bisbee," "Clifton," etc., as the Company will have several producers. The engineers' report on our mines shows that we only have to obtain sufficient money to equip our property and do the additional development work required to facilitate handling the ores which will enable us to treat ONE THOUSAND TONS OF ORE

With the plant installed on the property, the treatment of one thousand tons with a With the plant installed on the property, the treatment of one thousand tons with a value of only seven dollars per ton will give us A NET INCOME of \$5,000 a day, which is \$1,750,000 FOR ONE YEAR of three hundred and fifty working days.

The mines have produced and will produce ore that is worth HUNDREDS, and some that is worth THOUSANDS OF DOLLARS PER TON, and MILLIONS of tons worth five to ten dollars per ton. There is a positive assurance that one year's operation after the equipment is installed WILL REPAY THE ENTIRE INVESTMENT, and each year thereafter will PAY IT OVER AND OVER AGAIN.

Already there is a prough ore developed to work on to work and account of the second of th

Already there is enough ore developed to work on to warrant operations for one

Gold is the principal product. It is in demand at all times and under all circumstances. There is never an overproduction. Never a dull market for it, no matter what the times or conditions of the country. Failure of crops, labor strikes, panics or wars never interfere with its sale or exchange into money. Gold ores are the simplest of all ores to treat, and 90% of the Company's ores are

The most important feature of a mining venture is to have GOOD MINES. The next important feature is to have GOOD MANAGEMENT. Management of this corporation is in the hands of a Board of seven Directors—each and every director is on the Board because of A CASH INVESTMENT and THE DIRECT REPRESENTATIVE of others who have made investments. In not a single instance has any person's services or name been paid for, but each one has a personal interest in the outcome, and because of their being earnest and competent business men, SUCCESS IS ASSURED, doubly so because the properties to build it on already have been acquired.

Regarding the management of the mines, there will be no mistake or blunders made, owing to it being directly under the supervision of the President of the Company, who has an intimate and personal knowledge of every phase of the practical side of the mining business, and of every one of the Company's many claims, and has already spent some four years in the district in which they are located, making this organization possible.

To insure the greatest result for the money expended in the property, the COM PANY HAS SECURED THE SERVICES OF WM. A. FARISH, of Denver, Colorado to act as our Consulting Engineer, and his plans in the present instance will be followed. They were only decided upon after a period of several weeks having been spent on the ground, at which time the necessary tests, etc., were made, which insures the Company as well as the investor, that HIS PLANS ARE THE PROPER ONES TO FOLLOW Ms. Farish's reputation alone is great enough to assure the most skeptical that NO MISTAKES WILL BE MADE. Any one not having a knowledge of the MILLIONS OF DOLLARS HE HAS MADE FOR MINING INVESTORS can reassure themselves by requesting additional information regarding them.

HIS CONCLUSION TO HIS REPORT ON OUR PROPERTY IS AS

"FROM WHAT I HAVE AREADY STATED IT IS HARDLY NECES-SARY FOR ME TO TO SAY THAT I HAVE GREAT FAITH IN THE FUTURE OF THIS PROPERTY.

"I WILL, HOWEVER, EMPHASIZE THAT FAITH BY STATING THAT. AFTER A MOST THOROUGH EXAMINATION OF THE PROPERTY AND CAREFUL CONSIDERATION OF ALL GEOLOGICAL FEATURES AND FACTS RELATIVE TO IT, I AM FIRMLY OF THE OPINION THAT THE MINE IS IN ITS INFANCY AND THAT THE AMOUNT OF GOLD IT HAS ALREADY YIELDED IS A MERE 'BAGATELLE' AS COMPARED TO THE AMOUNT IT WILL YIELD WHEN FULLY OPENED AS RECOMMENDED, OPER-ATED AND MANAGED AS A LEGITIMATE BUSINESS ENTERPRISE." (SIGNED) WM. A. FARISH.

WICKENBURG, ARIZONA, JULY 1ST, 1904.

The Company has reached a stage in its development when it desires to interest additional capital, appreciating that it can accomplish so much more with a large fund available, and make the mines great producers at a much earlier date than it could other-

To obtain this money quickly and save both time and expense the Treasury Stock of the Company is offered to public subscription. That sufficient of it can be sold at an early date is certain, owing to this Company being made up of actual investors, and as such they are willing to offer the public an opportunity that is liberal and on a basis that is equitable and just, which places the new investors on the same basis as themselves. With that intention, the financial policy decided upon by the Directors on Sept. 6th is that the public be allowed to subscribe for the Company Stock at \$1.00 per share.

As compensation to the investor for the benefits the Company derives from the money that is made available for its corporate uses, it will issue to each and every purmoney that is made available for its corporate uses, it will issue to each and every purchaser of its Treasury Stock under this offer a GUARANTEED COMPENSATION CERTIFICATE, which shall be for an amount that is equal to the cash investment made by the subscriber, payable out of the first earnings from the Company's prop-

This GUARANTEED COMPENSATION CERTIFICATE shall bear interest a the rate of six per cent. per annum, payable semi-annually on the first day of January and July of each year, after issue, with interest computed quarterly.

The Company GUARANTEES that the interest will be paid on the days stated,

the same as any other current obligations, and FURTHER GUARANTEES that sixty per cent. of the net earnings will be used exclusively for paying any current interest payment, and from time to time on dates for interest payments take up the certificates to the full extent of the fund. The certificates to be taken up in the order issued, which is according to date of investment.

This means that the investor whose money helps build up our enterprise WILL RECEIVE FULL PAY AND NON-ASSESSABLE STOCK FOR THE FULL AMOUNT OF HIS OR HER INVESTMENT, and in addition thereto receive an amount of money (when the Compensation Certificate is paid) out of the Company's first earnings equal to that of the original investment, and while the equipment and further development to that of the original investment, and while the equipment and further development is going on, so as to put the Company in a position to pay dividends on the stock, he or she will receive interest on the Compensation Certificate at six per cent. per annum until the mills turn out enough bullion from the great bodies of GOLD ORES to pay the full amount of the GUARANTEED COMPENSATION CERTIFICATE, which will be issued as before stated, for an amount of money equal to the original investment. payment the stock will be on a dividend-paying basis and worth many times the original price paid for it, and will then stand as a clean profit to the investor already in hand and free and clear of any obligation. That stock then will have as great, probably greater, prospective value than any stock ever held by the public, because it will be a participant in the profits of these great gold mines.

We have given you the facts—call or mail your subscription. If you desire more detailed information write for it. You will get a share of full-paid and non-assessable stock for every dollar you invest and a Guaranteed Compensation Certificate for the full amount of your investment.

We desire to have you call, but if you cannot, send a subscription or further inquiry to
